

## Cache အားလုံးကို ရှင်းလင်းချင်သလား ???

သင့်ကွန်ပျူတာပေါ်က **(Temp)** ယာယီဖိုင်အားလုံးကို ချက်ချင်း ဖျက်ဖို့ **Windows Disk Cleanup** ကို သုံးပါ။

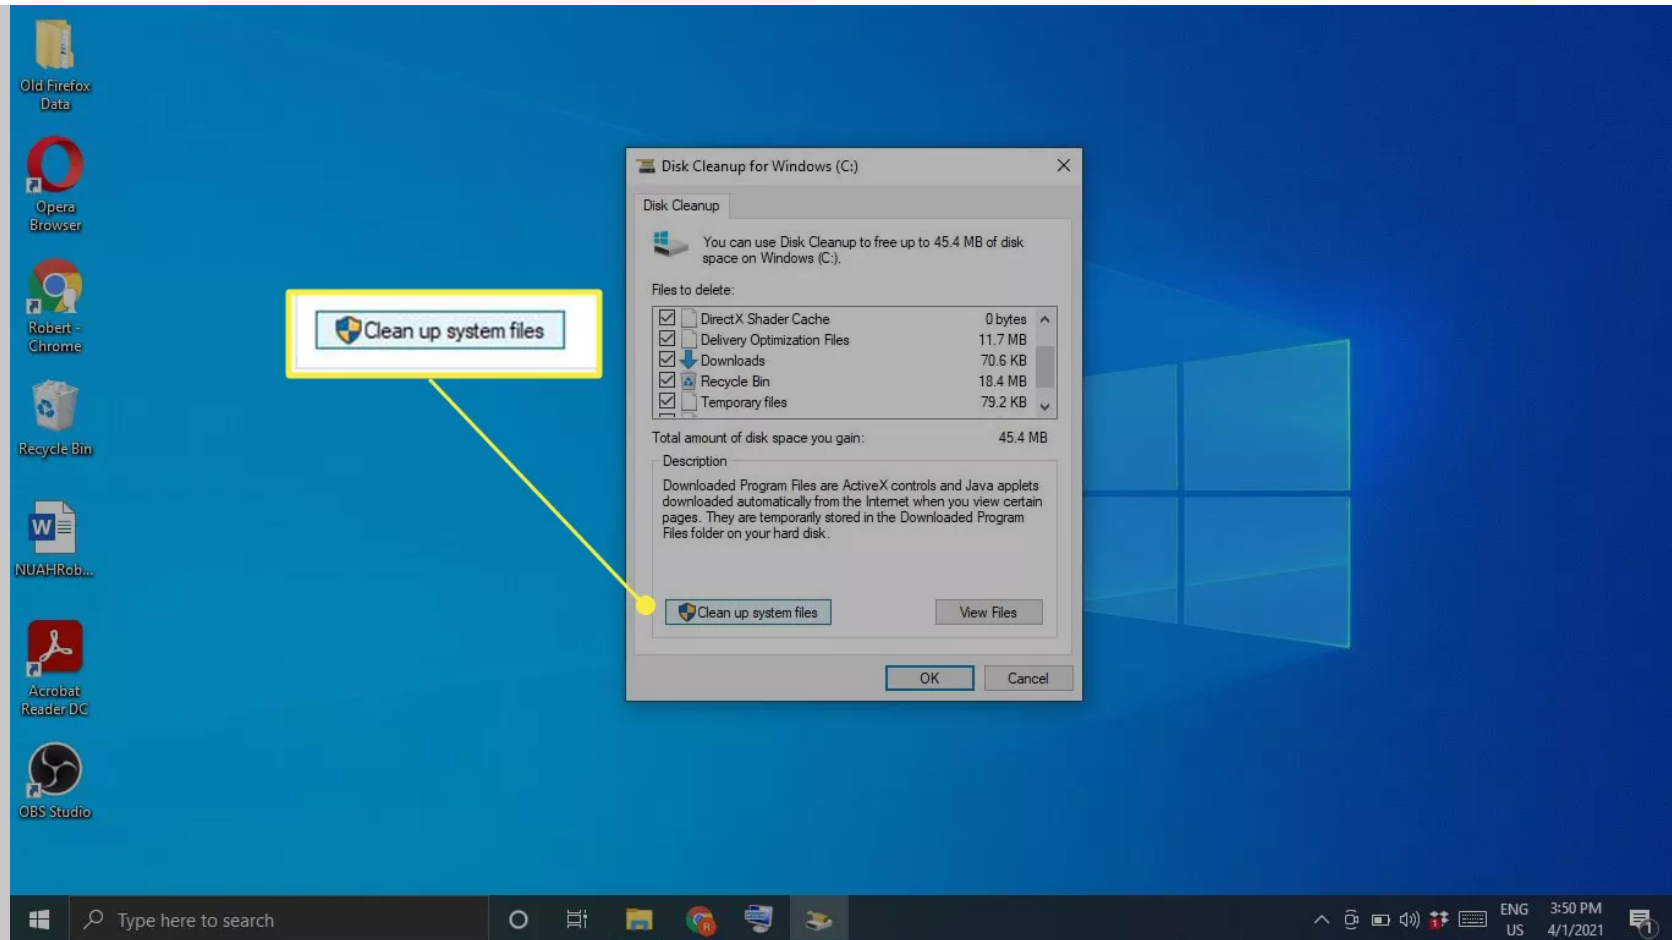

To delete all of the temporary files on your computer at once, use Windows Disk Cleanup:

1. Type **Disk Cleanup** in the Windows search box and select the **Disk Cleanup app**.

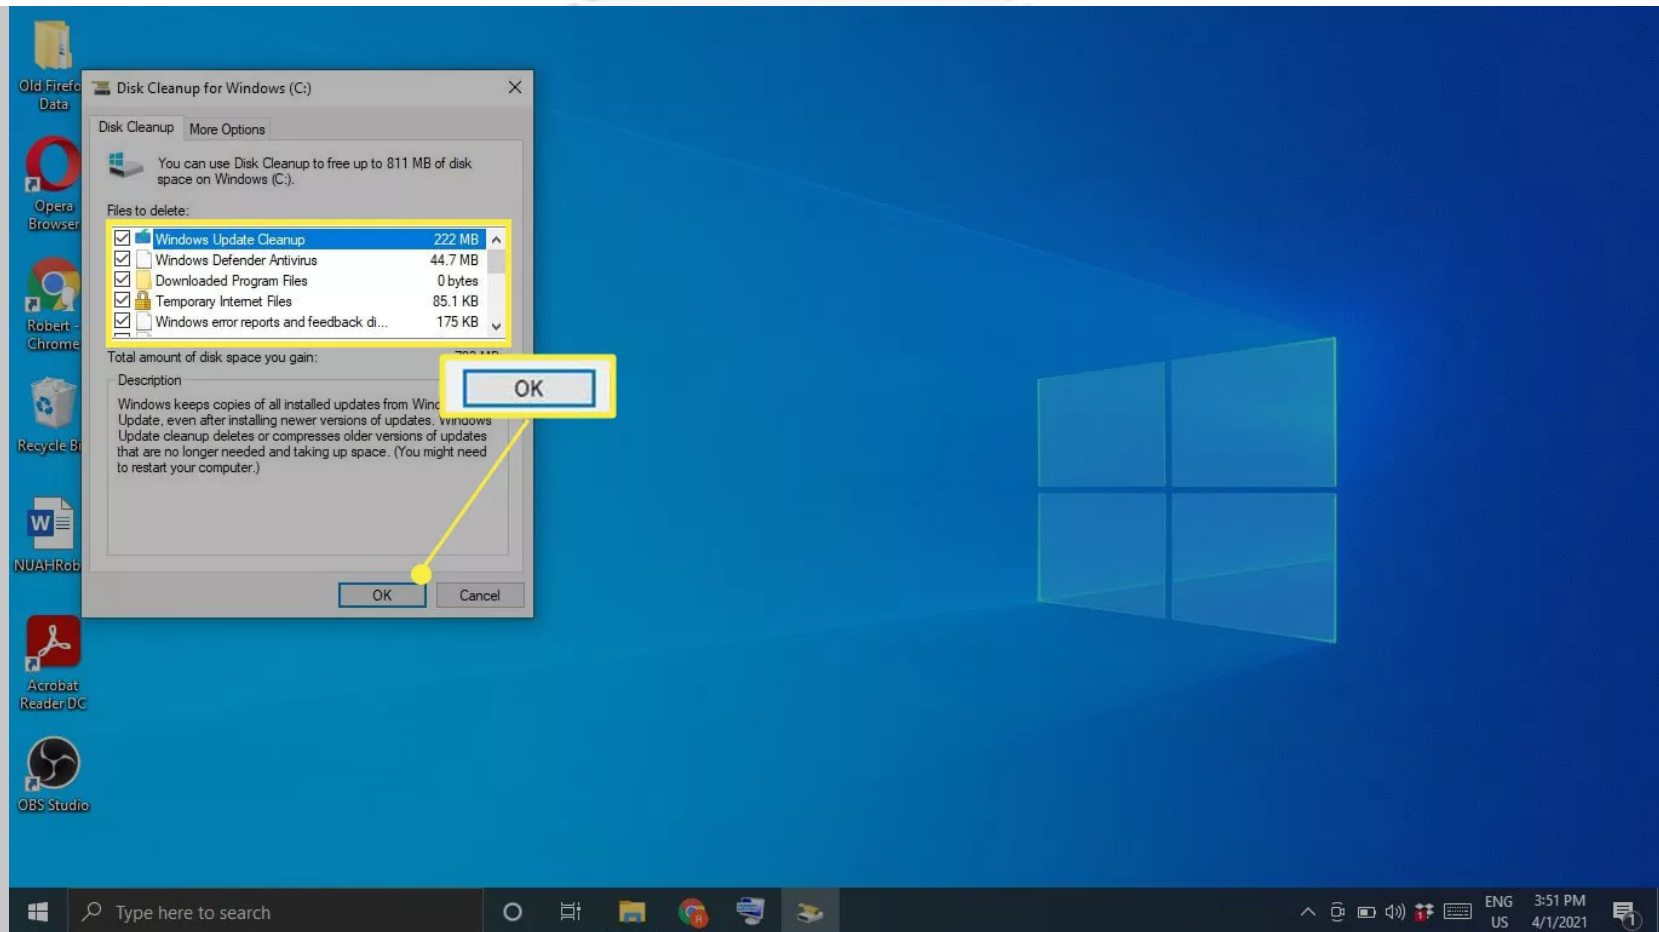

## 2. Select **Clean up system files**.

Before this step, you might be given the option to pick a drive to clean up. If so, choose the **C:** drive.

3. Choose all of the items you want to remove and select **OK**.

4. Select **Delete Files** to confirm.
